Select Medical Adds Two Rehabilitation Hospitals to Its Growing Network *Acquisition from GlobalRehab Expands Network's Reach Into Scottsdale, Arizona and San Antonio, Texas Markets*

Mechanicsburg, PA – Select Medical today announced it has purchased an interest in two inpatient rehabilitation facilities in the San Antonio and Phoenix markets from GlobalRehab Management, LLC and its affiliates. Part of a joint venture with Scottsdale Healthcare, GlobalRehab at Scottsdale Healthcare operates 50 beds. The greater Phoenix market also includes three Select Specialty Hospitals and 12 Select Physical Therapy outpatient clinics. The newly named Select Rehabilitation Hospital of San Antonio operates 42 beds. The San Antonio market also includes one Select Specialty Hospital and two Select Physical Therapy outpatient clinics.

“We are pleased to not only strengthen our post-acute care presence in these markets, but to have found partners equally dedicated to providing high-quality clinical outcomes and a great patient experience,” said Robert Ortenzio, CEO of Select Medical. “We welcome our new colleagues into the Select Medical network.”

The two hospitals join a dozen other inpatient rehabilitation facilities in the Select Medical network such as Kessler Institute for Rehabilitation. Kessler is one of only eight centers in the country to receive federal designation as a model system for the treatment and research of both spinal cord injury and brain injury, a distinction it holds with the Kessler Foundation. In addition, Select Medical owns West Gables Rehabilitation Hospital in South Florida and has
